**Onderwerp:** prudent use of photomaterial MH17

Dear colleagues,

[redacted] art 11 lid 1  
Photomaterial has been used for education purposes, but our minister of justice and security ordered us to be more restraint in showing pictures originating from the identification process in Hilversum.

[redacted] art 11 lid 1  
Anyway, MH17 (still) has a huge political and social impact, therefore all our actions have to be performed with care.

Probably some of you took some photo's of the Hilversum process with you. We ask you to use this material prudently.

[redacted] art 11 lid 1  
If you have any questions; you know how to contact us.

Best regards,

Also on behalf of [redacted] art 10 lid 2 sub e
